7110 Peli™ tactical torch

Peli™ 7110 tactical torch - 445 lumens with programmable modes & multi-battery

Technical specifications

- **Maximum output:** 445 lumens (with CR123 battery)
- **Lighting modes:** High, Strobe, Medium, Low - 4 programmable modes
- **Programs:** 5 light sequences selectable according to use
- **Battery compatibility:** 1 AA or 1 CR123 battery
- **Battery indicator:** real-time display of charge level
- **Body/finish:** Type III anodized aluminum, sturdy and resistant
- **Waterproofing:** IPX8 rating (immersion possible)
- **Beam distance:** ~ 93 m (high mode)
- **Dimensions:** length approx. 11.8 cm (4.63?)
- **Weight:** ~ 116 g with batteries, ~ 91 g without
- **Components & optics:** AR lens (anti-reflective), NBR O-ring seal
- **Clip:** high-strength steel clip for attachment to pocket or belt
- **Warranty:** lifetime Peli warranty (against breakage & manufacturing defects)

Benefits & highlights

The Peli 7110 torch boasts many qualities that make it an excellent choice for demanding users:

- **Versatile power supply:** the option of using an AA or CR123 battery offers great flexibility on missions.
- **High output:** up to 445 lumens for long-range illumination (approx. 93 m)
- **Programmable modes:** with 5 programs, users can define the sequence best suited to their needs (e.g. High > Strobe > Low, High only, etc.)
- **Compact and lightweight:** reasonable size (11.8 cm) and low weight, while remaining robust.
- **Permanent battery indicator:** no more low-battery surprises at the wrong time.
- **Robust construction:** type III anodized aluminum, AR lens, waterproof seals: resistant to shocks and harsh conditions.
- **IPX8 waterproofing:** withstands immersion (approx. 1 m), ensuring reliability in wet or rainy conditions.
- **Steel clip:** for easy attachment to pouches, belts or tactical equipment.

Recommended use & scenarios

The Peli 7110 torch is designed for professional or intensive use where reliability and performance count. Here are some typical scenarios:

- Security officers, police, law enforcement: tactical lighting, intervention, night patrol.
- Rescue & emergency operations: lamps for inspection, search, night rescue.
- Industrial work or work in dark environments (factory, drilling, inspection).
- Outdoor use, hiking, camping where a powerful, reliable beam is required.
- Water activities or wet conditions, thanks to IPX8 waterproofing.

Compatibility & accessories

The Peli 7110 is compatible with several accessories to optimize its use:

- Nylon / Cordura 7116 holster
- Plastic / rigid cases / extension clips
- Spare batteries: CR123, AA (alkaline or NiMH rechargeable)
- Brackets, collars, tactical accessories compatible with Peli 7 series (7110, 7610, 7620)

FAQ - Frequently asked questions

Which batteries should I use with the Peli 7110?
: You can use either an AA battery (alkaline or rechargeable) or a CR123 battery, depending on power and runtime.

What is the exact luminous flux depending on the battery?
: With a CR123: up to 445 lumens. With an AA: around 229 lumens in high mode, according to some sources.

How many modes and programs does the torch offer?

Is it waterproof?
: Yes, it has an IPX8 rating, which means it can be submerged to a depth of around 1 meter.

Can the clip or case be replaced?
: Yes, compatible accessories are available, including the 7116 nylon holster.

Is this torch directly rechargeable?
: No, it doesn't have a charging port: it runs on batteries. You must charge or replace the batteries according to their type (AA rechargeable or CR123 non-rechargeable).

Terms of delivery & returns

Delivery: Shipment from our MMF warehouse, with tracking. Estimated delivery times are 2 to 5 working days for mainland France, subject to stock availability.

Returns: In accordance with regulations, returns are accepted within 14 days of receipt, provided that the torch is unused, complete (batteries not used, packaging intact) and in its original packaging.
