Firefighting monitor AKRON Mercury Master 3446

AKRON MercuryMaster 3446 portable cannon - Performance and maneuverability for firefighting

The **AKRON MercuryMaster 3446 portable cannon** is an essential solution for fire-fighting operations requiring a fast, efficient response. Compact, lightweight and robust, it is designed to deliver powerful flow while remaining easy to transport. Ideal for use in urban, industrial or forestry environments, this model guarantees maximum efficiency with minimum installation effort.

MMF Protection et Sécurité, Akron Brass's main dealer and authorized repair center in France, offers you this high-performance firefighting monitor, as well as its expertise to help you choose, install and maintain it.

Why choose the AKRON MercuryMaster 3446?

The **MercuryMaster 3446** is distinguished by a number of features that make it a first choice for fire-fighting professionals:

- **A compact, lightweight format**: Weighing far less than traditional fixed guns, it is easily transportable and can be quickly positioned in the field.
- **Optimized projection power**: Thanks to its adjustable flow rate, it offers maximum coverage with a powerful, precise jet.
- **Quick to set up**: Designed to be operational in a matter of seconds, it enables immediate intervention in the event of an emergency.
- **Modular spray pattern**: The MercuryMaster 3446 allows you to switch between a straight and a diffused spray pattern, depending on your operational needs.
- **Excellent stability**: Featuring non-slip feet and a design that minimizes recoil, it remains stable even at high flow rates.
- **Tough as** nails: Made from Pyrolite (a high-strength aluminum alloy), it can withstand the most extreme conditions.

MercuryMaster 3446 technical specifications

Features	Description
Material	Pyrolite (high-strength aluminum alloy)
Flow	Adjustable up to 3800 L/min
Operating pressure	Up to 10 bar
Jet type	Straight or diffused jet (adjustable)

Ideal applications for the MercuryMaster 3446

The **MercuryMaster 3446** portable cannon is used in many contexts where rapid, flexible intervention is essential:

?? **Urban firefighting**: Ideal for emergency services requiring a high-performance gun that can be deployed quickly.
?? **Industrial protection**: Suitable for sensitive installations requiring powerful flow and wide coverage.
?? **Forestry safety**: Thanks to its light weight and maneuverability, it's perfect for fighting forest fires.
?? **Maritime and port use**: Its resistance to extreme conditions makes it a major asset for protecting seaside infrastructures.

Compatibility with other Akron Brass equipment

The **MercuryMaster 3446** is designed to work with various accessories and guns from the Akron Brass range, including :

- **Compatible heads**: AkroMatic 5177, SaberMaster 1578, Aquastream 4450.
- **Motorized and fixed cannons**: Compatible with several models for fixed or mobile installations.
- **High-performance systems** for adaptation to different types of fire.

Versatile design allows for integration into a variety of systems to meet specific requirements.
