Fire hose washer

Fire hose washer Mercedes Textiles Ltd - Efficiently clean fire-fighting hoses

Optimize **fire hose** maintenance with our Mercedes Textiles Ltd **fire hose washer**, specially designed for **the fire department**. This compact, lightweight machine is ideal for effective cleaning of forest, urban and industrial **fire hoses**. Thanks to its angled jet, it quickly removes particles stuck to the outer wall, while facilitating the hose's passage through the device.

Available in several models to suit different **pipe** diameters (from DN20 to DN110), the **fire hose washer** meets the specific needs of **fire-fighters** to ensure the cleanliness and durability of their equipment. Easy to use, it enables autonomous cleaning thanks to quick and simple pressurization. Reduce the risk of contamination and extend the life of your equipment with this innovative, high-performance solution.

Optional: Symmetrical, DSP or Storz connection.

Advantages of the Mercedes Textiles Ltd fire hose washer

- **Cleaning efficiency:** the angled jet effectively cleans **fire hoses**, removing particles embedded on the outer wall, even in difficult conditions.
- **Versatility:** suitable for different types of **hose(forest fire**, urban, industrial) and diameters ranging from DN20 to DN110.
- **Ease of use:** the **fire hose washer** is simple to connect and pressurize, and cleans autonomously, reducing the need for manpower.
- **Compact and lightweight:** the portable design makes it easy to transport and use on different sites.
- **Reduced risk of contamination:** helps maintain optimum equipment hygiene, essential for **fire-fighting** operations.
- **Adaptability:** available in three models to meet the specific needs of **fire-fighters**, depending on the **hose** diameters used.
- **Water savings:** optimized water consumption, adjusted according to the model and pressures used, guarantees efficient cleaning with a rational use of resources.

Using the Mercedes Textiles Ltd fire hose washer

- **Firefighters: ideal**for cleaning **fire hoses** used to fight **forest**, urban or industrial fires, to keep equipment functional and in line with safety requirements.

- **Industry:** for companies using **fire** or hydraulic **hoses** in their installations, the **hose washer** guarantees efficient maintenance after intensive operations.
- **Forestry:** useful for specialized **forest fire-fighting** teams, where **fire hoses** are exposed to extreme conditions (mud, ash, debris).
- **Specialized maintenance services:** companies offering maintenance and decontamination services for**fire-fighting** equipment.
- **Fire department training courses and schools:** to demonstrate and train the importance of equipment maintenance in learning conditions.

Diameter	Model	Washing capacity	Power supply	Dimensions
DN 40	Forest fire	Pipes from DN 20 to DN 40	DN 38 or 45	228.5 x 152.4 x 152. mm
DN 70	Street light	Pipes from DN 40 to DN 70	DN 45 or 50	305 x 209.5 x 209.5 mm
DN 110	Industrial fire	Pipes from DN 70 to DN 110	DN 50 or 75
