

Flashlight PELI™ 1930 L1

The PELI™ L1 1930 torch is a **compact, robust model** offering 12 lumens of brightness for use over short distances. Featuring a polycarbonate body **resistant to chemicals**, water and corrosion, it **guarantees optimum reliability** even in difficult conditions. Designed for practicality and efficiency, it is ideal for activities requiring temporary and precise lighting, while remaining easy to use thanks to its rear switch. In addition to its powerful LED beam, it comes with 4 LR44 alkaline button cells and a safety strap for optimum grip.

Features :

- **Lumens:** 12 lumens for effective illumination over short distances.
- **Lifetime:** Long battery life for extended use.
- **Body:** Made of polypropylene, resistant to chemicals, water and corrosion.
- **Switch:** Push-button switch on rear with continuous or momentary ON function.
- **Batteries:** 4 x 1.5 V LR44 alkaline button cells included (6.0 V).
- **Weight**
 - With batteries: 26 gr
 - Without batteries: 17 gr
- **Dimensions:** 6.7 cm
- **Materials**
 - Polypropylene body
 - O-ring in ethylene propylene
 - Polycarbonate (PC) lens
 - Xenoy coating
 - Contact and mounting in phosphor bronze.

Advantages:

- **Efficiency:** 12-lumen LED beam ensures clear, precise visibility at close range.
- **Resistance:** Polycarbonate body resists water, chemicals and corrosion, perfect for harsh environments.

- **Practical:** The push-button switch is easy to use, with continuous or momentary mode to suit your needs.
- **Accessories included:** 4 LR44 button cell batteries, safety lanyard and colored night vision discs for added versatility.
- **Compact and lightweight:** With a very low weight, this torch can be easily transported and used in any situation.
- **Warranty:** Peli's lifetime warranty gives you peace of mind about product durability.

Uses :

Outdoor activities: Hiking, camping, fishing, and other night-time activities where portable lighting is needed.

Professional work: Ideal for emergency situations or for use in sensitive environments such as laboratories or industrial spaces.

Safety: Use as a back-up light in safety situations, particularly in the event of a power cut or rapid intervention.

The PELI™ L1 1930 torch is a perfect choice for those looking for a reliable, compact and durable flashlight. Its rugged design and practical features make it an indispensable accessory for professionals, adventurers or any user in need of a reliable short-range light source. With its limited lifetime warranty, the L1 1930 combines performance and durability, offering excellent value for money in a miniaturized format.
