

20 mm hemp rope 20 m long with snap hooks

Hemp rope

Hemp rope for firefighters is an essential piece of equipment, designed to meet the highest standards of safety and strength. Made from natural hemp, it combines **sturdiness**, **flexibility** and **durability** for optimal use in intervention or training exercises. Its 4-strand braiding guarantees exemplary **strength** and **reliability**, even in extreme conditions.

Features :

- **Material** : Natural hemp
- **Diameter**: 20 mm
- **Length**: 20 m
- **Minimum strength**: 4000 DAN
- **Composition**: 4-strand twisted rope

Choice of finish :

- Loop
- Ring + thimble
- Mountain carabiner (minimum strength 2000 DAN)

Advantages of hemp rope :

- **High strength**: Designed to withstand high loads of up to 4,000 DAN.
- **Flexible and easy to handle**: Easy to handle and tie, ensuring a better grip.
- **Environmentally-friendly material**: Hemp is a natural fiber that is biodegradable and durable.
- **Versatile use**: Suitable for rescue missions, interventions and training exercises.
- **Customization**: Choice of several finishes to suit all needs.

Use:

This rope is ideal for firefighters in a variety of situations: lifting loads, rescue from heights, interventions in difficult environments, and training exercises. Its standardized design guarantees maximum safety, whether for rescue

professionals or enthusiasts of activities at height.

Standardized hemp rope for firefighters is high-quality equipment, designed for strength, durability and safety. Adaptable to a variety of uses and customizable according to your needs, it's the ideal choice for all operations requiring reliable, high-performance equipment.
