Energy case for site lighting 1460 Wh

ENERGY case portable 1461Wh: the ideal power supply for Luccia flares

The **ENERGY case portable 1461Wh**, distributed by **MMF Protection et Sécurité**is an innovative, high-performance solution for providing a reliable, self-contained power supply. Designed to fit perfectly with **Luccia lighting balloons**, this energy case stands out for its sturdiness, versatility and silent operation, with no emissions or noise pollution.

An energy case to suit your lighting needs

Offering **220V 50Hz pure sinusoidal** voltage, the ENERGY case is ideal for powering **Luccia** balloons. Particularly suited to construction sites, emergency interventions and outdoor events, it guarantees unrivalled autonomy and reliability.

Key benefits of the ENERGY case portable:

1. **Power and autonomy**:
    - Continuous output power of **1,500VA**, peaking at **3,000VA** for the most demanding devices.
    - Perfect for prolonged use with flares or any other electrical appliance.

2. **Multiple connectivity**:
    - **2 pure sinusoidal 220VAC sockets** for balloons and electrical appliances.
    - **2 USB ports** for accessories.
    - **1 12V 10A output** for additional connectivity.

3. **High-performance battery**:

- **NMC** technology (25.2V, 58Ah) for optimized battery life.
- Integrated display showing remaining autonomy, essential for precise energy management.

4. **Fast, flexible recharging**:

   - Fully charged in less than **4 hours** with the mains charger (220VAC / 29.4V 15A).
   - Charging via cigarette lighter for mobile use (12V/24V, 100W power).

5. **Compact, lightweight design**:

   - Dimensions of **340 x 175 x 250 mm** and weight of just **13.2 kg**, enabling easy transport and installation.

Luccia balloon energy case applications

The ENERGY case portable is the ideal solution for powering illuminating balloons in many contexts:

- **Construction sites**: safe, efficient lighting in areas without electricity.
- **Events**: illuminate outdoor areas independently.
- **Emergency response**: a reliable source of light for rescue and maintenance operations.
- **Public works**: energy autonomy for night-time operations.

A range of energy cases to suit your needs

In addition to the **1461Wh** model, MMF Protection et Sécurité also offers :

- **578Wh**: for light, nomadic applications.
- **3100Wh**: for long-term power supply needs.

These solutions are ideal for use with **Luccia lighting balloons**, creating a high-performance, self-contained unit for all your missions.

Why choose MMF Protection et Sécurité?

With recognized expertise in energy and lighting solutions, **MMF Protection et Sécurité** is committed to providing reliable, robust equipment adapted to all professional environments.

For more information or a personalized quote, contact us today. With the **ENERGY case portable 1461Wh**, optimize your lighting performance with autonomous, mobile and silent energy.
