

## Micro Case 1010

### PELI Micro Case 1010: Compact Protection for Small, Sensitive Equipment

The **PELI Micro Case 1010** is a waterproof protective case designed to safeguard small, sensitive equipment from the rigors of the field. Compact, lightweight, and rugged, it effectively protects electronic accessories, fragile components, memory cards, batteries, connectors, small tools, or personal items exposed to moisture, dust, or impacts.

Thanks to its compact size, it fits easily into a field bag, a technical case, a vehicle, or a limited storage space. It is a practical solution for professionals who want to carry the essentials without adding unnecessary bulk.

#### A waterproof, durable, and easy-to-carry micro case

The **Micro Case 1010** is designed with a **polycarbonate** body, a material known for its impact resistance and light weight. Its rubber inner liner provides additional protection for the contents and helps ensure the case is watertight.

**IP67-certified**, it protects against water and dust in accordance with the conditions specified by this certification. It is therefore ideal for professionals working in outdoor, wet, dusty, or high-handling environments.

#### A practical size for organizing and securing essentials

With interior dimensions of **11.1 x 7.3 x 4.3 cm**, the **PELI Micro Case 1010** offers a volume suitable for storing small items requiring enhanced protection. Its exterior dimensions of **14.9 x 10.3 x 5.4 cm** ensure a minimal footprint for quick and easy transport.

Weighing just **0.18 kg** without foam, it fits easily into an already full kit. Its buoyancy of **0.23 kg** also makes it ideal for use in wet environments or during outdoor excursions.

#### Features suited for field use

- **IP67 protection** against water and dust
- **Polycarbonate body** for good impact resistance
- **Inner rubber liner** providing additional protection
- **Easy-open closure** for quick access to contents
- **Carabiner** for easy transport and attachment

- **Compact size** suitable for small, sensitive equipment
- **Lightweight design** to minimize bulk in daily use

## What is the Micro Case 1010 used for?

The **PELI Micro Case 1010** is designed for professionals who need to protect small, sensitive equipment in a compact format. It can be used to transport fragile components, electronic accessories, memory cards, batteries, connectors, small tools, keys, technical parts, or personal items.

It is suitable for technicians, maintenance teams, field professionals, emergency response services, industrial sectors, security, rescue operations, or users working in demanding environments.

## Frequently Asked Questions About the PELI Micro Case 1010

### Is the PELI Micro Case 1010 waterproof?

Yes, the **PELI Micro Case 1010** is **IP67-certified**. It protects the contents from water and dust under the conditions specified by this certification.

### What equipment can be stored in the Micro Case 1010?

It is suitable for **small, sensitive equipment**: electronic accessories, fragile components, memory cards, batteries, connectors, small tools, or personal items requiring enhanced protection.

### What is the difference between the Micro Case 1010 and the Micro Case 1020?

The **Micro Case 1010** is more compact than the Micro Case 1020. It is better suited for very small items, while the 1020 offers slightly more interior space for larger accessories.
