

## First aid kit for empty intubation set

### Product features:

Dimensions (WxHxD): 32x23x9cm

Reference: 34074

EAN13: -

The Intubation Set First Aid Kit is an **essential** accessory for healthcare professionals, enabling **efficient** storage and transportation of medical equipment. Made from **CODURA**, a **durable, lightweight** material, it offers **optimum protection** thanks to its **internal padding**. With several compartments for organizing instruments such as probes and cannulas, it facilitates rapid access and reduces search time. The kit is equipped with a YKK ® zipper for added security and convenience, as well as carrying handles for easy transport.

### Features:

- **Material:** Codura, a sturdy, wear- and water-resistant fabric.
- **Closure:** High-quality YKK ® zipper for added security.
- **Dimensions:** 32x23x9 cm, optimizing space while remaining compact.

- **Internal padding:** Protects equipment from shocks and impacts.
- **Internal compartments:** Several pockets for organized storage of medical equipment.
- **Carrying handles:** Two ergonomic handles for convenient transport.

## Benefits :

1. **Optimized storage:** Various compartments for quick, organized storage of all intubation accessories.
2. **High-quality material:** **Cordura** is a durable, hard-wearing fabric, giving the kit a long service life.
3. **Reinforced protection:** Internal padding effectively protects equipment from shocks and impacts.
4. **Carrying comfort:** Carrying handles make it easy to move the kit from one place to another.
5. **Secure contents:** The YKK ® zipper ensures optimum security for your instruments, preventing accidental opening.
6. **Convenient dimensions:** With dimensions of 32x23x9 cm, the kit is large enough to hold all the necessary items while remaining compact and easy to carry.

## Use:

This first-aid kit is an essential tool for healthcare professionals, including doctors, nurses and first-aiders. It is particularly useful in emergency situations, providing quick and organized access to intubation equipment. Thanks to its robust, practical design, it can be used in hospitals, clinics, ambulances and emergency services. It can also be an excellent choice for medical care simulation training or practice.

In short, this **intubation kit** is a must-have for optimal organization and enhanced safety of medical equipment. Made from **Codura**, it offers unfailing strength and durability. **Internal compartments**, **YKK ® closure** and **carrying handles** make this an efficient and practical tool for any healthcare professional. If you're looking for a reliable, high-quality intubation kit, this item will meet your most exacting expectations.
