

Revel Scout portable emergency light

The *Revel Scout* from Akron Brass is a portable light specially designed for emergency response professionals. This robust, powerful headlamp is the ideal tool for illuminating dark areas during critical interventions. Whether for extrication operations, industrial interventions or night rescue, the Revel Scout combines exceptional light output, extended autonomy and ruggedness. Thanks to its compatibility with Holmatro extrication tool batteries, this headlamp meets the demands of the most demanding situations.

Revel Scout features :

Light performance

The Revel Scout offers several levels of light output, adjustable to the specific needs of the operation:

- **Full power:** 14,000 lumens
- **Intermediate power:** 8,000 lumens
- **Low power:** 2,000 lumens
- **Spot mode:** 6,000 lumens

This versatility makes it possible to adapt lighting intensity to the visibility conditions of each situation.

Autonomy:

Autonomy management is a major asset for prolonged operations. The Revel Scout offers the following options:

- **Full power:** up to 1.2 hours
- **Intermediate power:** up to 3 hours
- **Low power:** up to 7 hours
- **Spot mode:** up to 3.5 hours

The *Revel Scout* is also equipped with a charge level indicator for real-time monitoring and to avoid interruptions in the middle of an operation.

Robustness and compatibility :

- **Protection rating:** IP66 (dust and splash-proof)
- **Compatibility:** Holmatro rescue tool battery

Its robust design and resistance to harsh climatic conditions make the Revel Scout a reliable product for interventions in extreme environments.

Revel Scout benefits :

- **Exceptional light output:** With up to 14,000 lumens at full power, the Revel Scout ensures optimum visibility in emergency situations, even in totally dark areas.
- **Long runtime:** Flexible runtime allows teams to work for long periods without interruption.
- **Robust design:** IP66 protection ensures that the Revel Scout can withstand harsh conditions such as dust, humidity or splashing water.
- **Extended compatibility:** Its use with Holmatro tool batteries enhances practicality and reduces the need for additional equipment.
- **Portability:** Weighing just 5.4 kg, it's easy to carry and handle.

Use:

The Revel Scout is designed to be a valuable ally for professionals in a variety of fields:

- **Firefighters:** Ideal for operations in dark or disaster areas where visibility is crucial.
- **Rescue teams:** Perfect for extrication and night operations, providing stable, long-lasting light.
- **Industrial interventions:** Effective on construction sites or in demanding environments where lighting must be reliable and resistant.

Akron Brass' Revel Scout is the ultimate portable light for emergency response. Its powerful light, impressive battery life and ruggedness make it ideal for professionals working in difficult conditions. Its compatibility with Holmatro extrication tool batteries and IP66 protection rating add to its versatility and reliability.
