

8-FUNCTION BRONZE SESAME KEY

The **8-Function Bronze Sesame Wrench** is a compact, sturdy multi-tool designed to meet a variety of everyday needs. Made from bronze, it incorporates eight essential tools, offering increased versatility while remaining easily transportable.

Features:

- **Material:** Bronze, guaranteeing robustness and resistance to wear and tear.
- **Dimensions:** Compact and lightweight (approx. 50 g), it slips easily into a pocket or bag.
- **Built-in functions:** Tightening fittings from 20 to 120 mm, opening EDF/GDF boxes (12 mm female triangle), opening windows and doors (6.5 mm square), opening building leaves (7 mm male triangle), opening fire cabinets and ventilation ducts (pyramidal square), opening aluminum locks (screwdriver), opening dry columns (12.5 mm female square) and bottle opener.

Advantages :

- **Versatility:** Replaces several traditional tools, simplifying everyday tasks.
- **Durability:** Its bronze design ensures long life, even under demanding conditions.
- **Compactness:** Easy to transport, ideal for use in the field or on the move.

Application:

This key is indispensable for professionals such as firefighters, maintenance technicians and public service workers, facilitating rapid access to essential installations and contributing to the efficiency of interventions.

The **8-function bronze Sesame key** offers an all-in-one solution for a variety of technical and intervention needs. Its robust design and multiple functions make it a wise choice for those seeking efficiency and reliability in a compact format.
