

Replacement telescopic pole for Peli™ RALS 9490 floodlight

Peli™ RALS 9490 Telescopic Pole

The **Peli™ RALS 9490 Telescopic Mast** is essential equipment for professionals involved in emergency situations, such as first-aiders, firefighters or law enforcement. Designed to be both robust and flexible, this mast swivels up to **340°** and can be erected to **4** different **levels**, with a maximum height of **182.9 cm**. It is equipped with a **locking ring** to securely hold the lighting head in place, guaranteeing optimum stability when working. What's more, the **integrated connection cable** enables the light head to be connected directly to the mast, simplifying its use and reducing the risk of cables becoming entangled.

Features :

- **Maximum height:** 182.9 cm at its highest point.
- **Pivots 340°** for 360° lighting and visibility.
- **4 heightadjustment levels** to suit your needs.
- **Locking ring** keeps mast stable during use.
- **Integrated connection cable** for easy light head connection.
- **Robust design**, ideal for use in demanding environments.

Advantages of a Peli™ RALS telescopic mast:

- **RALS Flexibility of use:** Thanks to its ability to swivel 340°, it easily adapts to different angles for optimal

lighting.

- **Adjustable height:** With its 4 levels of adjustment, it allows you to modulate the height according to the situation, for greater practicality and efficiency.
- **Simplified installation:** The integrated connection cable eliminates the need for additional wiring, reducing the risk of tangling and facilitating rapid equipment deployment.
- **Secure design:** The locking ring ensures secure attachment, even under the most demanding conditions.

Use:

The **Peli™ RALS 9490 Telescopic Mast** is an indispensable tool for **emergency interventions** such as:

- **Road accidents**, where powerful, directional lighting is crucial to ensure the safety of responders and victims.
- **Road checks**, where law enforcement agencies need a stable, adjustable light source.
- All situations requiring temporary lighting in difficult environments or at night, such as on-site interventions.

The **Peli™ RALS 9490 Telescopic Mast** is an optimal choice for emergency professionals who need portable, flexible and safe lighting. Its innovative design with an integrated cable, its rotation and height adjustment capability, and its robustness, make it a trusted piece of equipment for interventions in varied and demanding conditions.
