

Rechargeable LED spotlight with magnetic base

Rechargeable LED spotlight (Magnetic base) MSR1516RM | Choose between: Supplied with 12 and 220V charger or Supplied with carrying case, 12 and 220V charger MSR1516RMT

The MSR-1516 rechargeable LED zone light with magnetic base is the ideal solution for those looking for a powerful and reliable light source portable. Made from die-cast aluminum, it offers enhanced resistance to shocks and chemicals. Thanks to its innovative design with multi-finned heat sink, it remains cool to the touch, even after many hours of use. With a luminous intensity of 2,500 lumens in high mode and 1,250 lumens in low mode, it guarantees optimum lighting for all your needs.

Features:

- **Light output:** 2,500 lumens (high) / 1,250 lumens (low)
- **Battery:** Li-ion rechargeable
- **Lighting modes:** High / Low
- **Base:** Powerful magnetic for attachment to metal surfaces
- **Construction:** Powder-coated die-cast aluminum
- **Lens:** Tempered glass
- **Waterproofing:** IP-X7 (water-resistant)
- **Mobility:** Comfortable, ergonomic handle
- **Power supply:** Compatible with mains (AC) and cigarette-lighter (DC) power supplies
- **Standards:** NFPA-1971-8.6 (2018) compliant

Advantages :

- **Mobility and versatility:** Designed for both indoor and outdoor use, this light is ideal for worksites, emergency response or dark areas.
- **Hands-free use:** Its integrated magnetic base means it can be securely attached to any metal surface.
- **Enhanced durability:** Its impact-resistant, chemical-resistant design ensures long life.
- **Optimized cooling:** The heat dissipation system keeps the lamp cool, increasing its durability and safety.

Use:

The Rechargeable LED Scene Light is perfect for :

- **Construction and industrial professionals:** site lighting, industrial maintenance, etc
- **Emergency and rescue services:** firefighters, police, night operations
- **Outdoor enthusiasts:** camping, hiking, night exploration
- **Garages and mechanics:** car repairs in dark environments

Choose the **NSR-1516 rechargeable LED zone light** with magnetic base and enjoy high-performance, long-lasting lighting for all situations. With its robust design, autonomy and lighting power, it will meet the expectations of professionals and private individuals alike in search of quality and reliability
