

PowerCase E5 - 6 kWh Nomad battery

PowerBox E5 - High-performance 6 kWh mobile battery

The **PowerBox E5** is a powerful, robust mobile battery designed to provide reliable power wherever you are. With its **6 kWh energy capacity** and **5.5 kW output power**, it's ideal for use at home, in the office or at events. Whether you're powering household appliances, building site equipment or ensuring energy autonomy in isolated areas, the PowerBox E5 is the indispensable ally for demanding needs.

Its watertight design (IP54) and compact structure make it easy to transport and use outdoors in a variety of conditions.

Technical specifications:

- **Rated capacity:** 6 kWh
- **Output power:** 5.5 kW
- **Output voltage:** 220 VAC
- **Recommended charging time:** 4 hours
- **Dimensions:** 962 x 650 x 590 mm
- **Weight:** 70 kg
- **Protection rating:** IP54 (dust and splashproof)

Advantages :

- **Extended autonomy:** Up to **20 hours** of autonomy with low-consumption equipment (e.g. beer taps).
- **Fast recharging:** Optimized recharging time of just 4 hours for rapid return to service.
- **Mobility & robustness:** Easily transportable on construction sites or in isolated areas, while protected against external aggression thanks to IP54 rating.
- **Universal compatibility:** powers a wide variety of devices thanks to its standard 220 V output.
- **Eco-responsible solution:** Silent alternative to thermal generators, with no direct CO₂ emissions.

Application:

The PowerBox E5 is ideal for:

- **Outdoor events:** concerts, weddings, festivals...
- **Construction sites & craftsmen:** powering tools or lighting in the absence of a mains supply.
- **Motorhomes & vanlife:** autonomous power source for domestic appliances.
- **Domestic emergencies:** in the event of a prolonged power cut.

The **PowerBox E5** is a **high-capacity nomad battery** designed for reliability, versatility and energy efficiency. Whether you're a professional or a private user, it offers a **mobile, silent and powerful solution** for all your off-grid electrical needs. Invest in energy freedom with PowerBox E5.
