

## PowerCase E11 - Nomad 11 kWh battery

### PowerBox E11 - High-performance 11 kWh mobile battery

The **PowerBox E11** is a **high-capacity nomad battery** designed to provide reliable power portable in all situations, whether at work, on a construction site or at an outdoor event. With an **energy capacity of 11 kWh** and an **output power of 11 kW**, it's an essential solution for meeting a wide range of electrical needs without having to depend on the grid.

Compact, robust and high-performance, the PowerBox E11 is the ideal ally for demanding users looking for autonomy, safety and ease of transport.

### Technical specifications

- **Energy capacity:** 11 kWh (nominal)
- **Power output:** 11 kW
- **Output voltage :** 220 VAC
- **Dimensions :** 962 x 650 x 590 mm
- **Weight :** 110 kg
- **Recommended charging time:** 4 hours
- **Protection rating:** IP54 (dust and splashproof)

### Key benefits

- **Extended autonomy:** Sufficient capacity to power energy-hungry appliances for several hours.
- **Instant power:** 11 kW continuous output to run powerful equipment.
- **Fast recharging:** Fully recharged in just 4 hours.
- **Resistance to harsh environments:** IP54 standard, ideal for outdoor or industrial use.
- **Mobility assured:** compact and portable despite its power.

The **PowerBox E11** is much more than just a battery portable: it's a powerful **stand-alone power solution** for

intensive use. Whether you're a building professional, an event organizer or simply looking for a reliable energy solution for an isolated site, this 11 kWh nomad battery will meet your requirements.
