

Torch PELI™ 3325 Atex Zone 0 - Photoluminescent head

Peli™ 3325Z0 ATEX Zone 0 flashlight - Powerful, compact and certified for hazardous areas

The **Peli™ 3325Z0 ATEX zone 0 flashlight** is an explosion-proof LED lamp specially designed for high-risk environments. With a light output of **155 lumens**, it guarantees effective illumination even in the most confined areas. With its **compact design** (15.4 cm long, 173 g including batteries), it is designed for **one-handed use**, thanks to its ergonomic rear switch.

ATEX Zone 0 certified, it can be used safely in the presence of explosive gases. This LED flashlight is ideal for professionals working in industrial and petrochemical environments, or in classified hazardous areas.

Technical specifications

- **Model:** Peli™ 3325Z0
- **ATEX certification:** Zone 0 (explosive atmospheres - gas)
- **Technology:** LED
- **Light output:** 155 lumens
- **Illumination range:** up to 140 meters
- **Luminous intensity:** 4,926 candelas
- **Operating time:** 16 hours
- **Power supply:** 3 LR06 (AA alkaline) batteries
- **Weight:** 173 g (with batteries)
- **Length:** 15.4 cm
- **Protection rating:** IPX7 (waterproof to 1 m for 30 minutes)
- **Photoluminescent head:** yes, visible in the dark
- **Antistatic:** yes

Benefits

- **Safe use in hazardous areas:** **ATEX zone 0 certification** makes this lamp suitable for use in high-risk environments.
- **Enhanced waterproofing:** **IPX7** rating allows temporary immersion without loss of performance.
- **Lightweight, ergonomic design:** easy to handle with one hand, even when wearing gloves.
- **Photoluminescent head:** finds the lamp quickly in the dark.
- **Versatile use:** can be attached to a helmet mount for hands-free use.
- **Long runtime:** up to **16 hours** of continuous lighting.

Recommended use

The **Peli™ 3325Z0 ATEX zone 0 LED flashlight** is designed for professionals working in hazardous environments:

- Oil platforms
- Refineries
- Chemical plants
- ATEX-classified industrial sites
- Work in confined or poorly ventilated areas
- Underground work

Thanks to its **dual torch/headlamp function**, it adapts perfectly to the needs of the field.

Compact, powerful and safe, the **ATEX zone 0 Peli™ 3325Z0 flashlight** is an indispensable lighting tool for professionals working in hazardous atmospheres. Its **robust design, long runtime and safety certifications** make it a benchmark in the explosion-proof LED lamp market.
