

Eye shower portable 34 liters with wall bracket

Eye shower Portable KN 1534 - 34 Litres - Self-contained eye first-aid station

Protect your employees with the portable KN 1534 eyewash station from Krusman, an essential piece of safety equipment for high-risk environments. This emergency eyewash station operates without connection to a water supply, thanks to a gravity system. It offers a fast, compliant solution in the event of chemicals or foreign bodies being sprayed into the eyes.

KN 1534 eye shower technical specifications

- Capacity: 34 liters of drinking water, allowing continuous rinsing for 15 minutes
- Flow rate: 2.2 liters/minute via a dual-nozzle spray system
- Installation: self-contained and easy to install, ideal for areas without access to running water
- Dimensions: 590 mm (width) x 400 mm (height) x 250 mm (depth)
- Empty weight: 6 kg
- Tank: durable, easy-to-maintain plastic tank

Recommended applications

This model is ideal for :

- Chemical, pharmaceutical and food industries
- Factories, warehouses and production sites
- Laboratories and research centers
- Construction sites, refineries and isolated sites
- Technical schools, universities and training centers

Care and maintenance

The tank must be filled with clean drinking water and a sterilizing liquid (optional). The water must be replaced every 6 months. Regular inspection is recommended to ensure proper operation of the system in the event of an emergency.

KN 1534 benefits

- Complies with industrial safety standards
- Essential in any occupational risk prevention plan
- Easy to use and quick to activate
- Stand-alone operation without permanent connection
- Compact size and portable for flexible installation
