Eye shower portable 60 Litres with wall bracket

Eye shower Portable KN 1540 - 60 Litres - Self-contained rinsing station for eye safety

The portable KN 1540 eyewash station from Krusman is an essential emergency safety solution for industrial environments, laboratories, construction sites and any place where access to drinking water is limited. Designed for stand-alone operation, this rinsing station uses gravity to deliver a constant flow of water through two spray nozzles.

KN 1540 eyewash station technical specifications

- Tank capacity: 60 liters, of which over 53 liters can be used continuously for 15 minutes
- Flow rate: 2.65 liters/minute via dual spray nozzles
- Stand-alone operation: no connection to a water source required
- Dimensions: width 559 mm x height 521 mm x depth 508 mm
- Empty weight: 8 kg
- Material: robust, easy-to-clean plastic tank

Recommended applications

The KN 1540 eyewash station is ideal for :

- Chemical, petrochemical and pharmaceutical industries
- Storage areas for hazardous substances
- Construction sites, isolated or temporary sites
- Maintenance workshops, garages and factories
- Research laboratories, technical schools and training establishments

Maintenance and safety

The tank must be filled with clean drinking water and a suitable sterilizing liquid. It is imperative to replace the water every six months and to carry out regular inspections. A **bacteriostatic additive** (part no. KN1540BA) is available as an accessory to prevent the formation of bacteria in the tank.

An **emergency sign** is supplied with each KN 1540 eyewash station.

KN 1540 benefits

- Complies with safety standards for first-aid equipment
- Provides immediate response in the event of an eye accident
- Large capacity for extended protection
- Easy to install and move as required
- Ideal for environments with no fixed water supply
