

## Castors for Peli™ waterproof cases

### Removable castor kit for Protector transport cases

Make transporting your heavy equipment easier with this **removable castor kit** designed for **Protector** transport crates. Whether for occasional or regular use, this removable caster system ensures **optimum mobility**, while allowing **easy removal of the wheels for storage**. Ideal for field professionals, photographers, technicians or anyone needing secure, convenient transportation of their equipment.

#### Technical specifications:

- **Compatibility:** Peli™ transport cases
- **Kit contents:**
  - 4 fixing clips for castors
  - 2 standard castors
  - 2 castors with integrated brake to stabilize the case
  - 16 mounting screws
- **Robust materials** designed to withstand heavy loads
- **Removable system:** castors can be quickly removed for compact storage

#### Benefits :

- **Easy transport:** smooth movement even on uneven floors
- **Enhanced safety:** two lockable castors to secure the body during use
- **Space-saving:** wheels can be easily dismantled for optimized storage
- **Simple installation:** everything you need is included for quick, effortless assembly
- **Durability:** sturdy, wear-resistant parts

#### How to use:

1. Attach the mounting clips to your transport box using the screws supplied
2. Insert the castors into the clips - two at the front and two at the rear, as required
3. Activate the brakes on the castors to stabilize the crate
4. For storage or transport without castors, simply detach them from the clips

This **removable castor kit** is the essential accessory for optimizing the use of your Peli™ transport cases.

Designed to combine **mobility, safety and practicality**, it makes it easy to transport your equipment, while offering a smart storage system. An ideal choice for professionals on the move!
