

Magnetic holder for Skipper signalling tape

Magnetic Skipper tape holder - Safety & extra protection

This **magnetic Skipper tape holder** is designed to secure your sensitive areas quickly and effectively. Ideal for critical environments (worksites, industry, roads, intervention), it allows Skipper tape reels to be attached to any ferromagnetic metal surface (except stainless steel and aluminum), without drilling or tools.

Technical specifications

- **Height:** 160 mm
- **Width:** 90 mm
- **Depth:** 135 mm
- **Weight:** 600 g
- **Material:** sturdy aluminum
- **Attachment:** 2 powerful integrated magnets

Advantages of the Skipper magnetic tape holder

- **Instant set-up:** fasten in seconds, ideal for urgent applications.
- **Increased safety:** sturdy ribbon holder ensures clear, durable signage.
- **Compact and lightweight:** easy to transport on site or in emergency vehicles.
- **Reusable:** a cost-effective, eco-responsible solution.
- **Neutral black color:** suitable for all environments without affecting legibility.

Areas of use

- Construction sites, roads and urban planning
- Civil security, police, firefighters
- Industrial maintenance and logistics

- Transport (railways, airports)
- Military and emergency services

Why choose this Skipper magnetic holder?

- **Reliability:** a secure solution for controlling flows and restricted areas.
- **Simplicity:** tool-free installation for immediate use.
- **Economical:** reusable product, limiting MMF waste.
- **Adaptable:** designed for Skipper range of tapes.
