80 Series safety cabinet - Robust storage cabinet for fire hoses and rescue equipment

The **Series 80 safety cabinet** is a **secure storage** solution designed for **industrial environments with high levels of stress**. Ideal for **protecting fire hoses, first-aid supplies** and other sensitive equipment, it ensures optimum preservation against external aggressions such as humidity, dust and chemicals.

Robust design for extreme environments

Constructed from **high-density polyethylene (HDPE)**, the Series 80 enclosure guarantees excellent **resistance to impact**, UV, chemicals and the elements. Its **watertight structure** makes it ideally suited to outdoor industrial areas, **temporary worksites** and **ATEX-rated sites**. This **fire protection enclosure** is designed for long-lasting, reliable use in extreme conditions.

This model is particularly suitable for :

- **Safe storage of a portable emergency shower**, protected from dust, water and climatic variations.

- **Storage of a fire extinguisher**, easily accessible in an emergency.
- **Protection of sensitive safety equipment**, requiring rapid access and preservation in perfect condition in demanding environments.

Technical specifications

- Material: **High-strength polyethylene (HDPE)**, ideal for **harsh industrial environments**
- Color: **High-visibility green** for immediate identification in emergency situations
- Closure: T-handle or **key under glass** depending on model
- Transparent **polycarbonate** windows **with UV filter**
- **Ergonomic opening** for quick access to contents
- **Rubber seal** for perfect protection
- Mounting: **Wall-mounting only**
- Dimensions: Height 850 mm x Width 565 mm x Depth 375 mm
- Weight: 13 kg

Recommended applications

- Hazardous areas: **ATEX sites**, chemical industries, refineries
- **Intervention** and emergency **vehicles**
- Indoor and outdoor **fire safety systems**
- **Temporary worksites** and **storage areas exposed to the elements**

When you choose MMF, you benefit from :

- **Personalized technical advice** tailored to your operational constraints
- **Fast delivery** throughout France
- **Responsive**, professional and expert **after-sales service** in the field of **industrial safety**
