

## 900 mm storage box for PPE

Product features:

Reference: -  
EAN13: -

Locking: Clé sous vitre

### **90 Series Safety Cabinet - Robust storage solution for emergency and rescue equipment**

The Series 90 safety cabinet is a reliable and durable emergency storage solution, specially designed for harsh industrial environments. It provides optimum protection for emergency equipment, such as an absorption kit, first-aid equipment or any other safety device sensitive to climatic conditions or aggressive environments.

#### **Heavy-duty design for extreme conditions**

This industrial storage box is made from high-density polyethylene (HDPE), a material renowned for its exceptional resistance to impact, chemicals, UV and weather. Its watertight structure guarantees optimum durability, even in high-stress areas such as construction sites, ATEX zones, outdoor areas or high-risk industrial sites.

#### **Ideal for a wide range of safety applications**

The Series 90 enclosure is particularly recommended for :

- Protected storage of a portable emergency shower, away from humidity, dust and bad weather.
- Secure storage of a fire extinguisher, with rapid access in the event of an emergency.
- Protection of critical equipment requiring perfect preservation under extreme conditions.

## Detailed technical specifications

- Made of high-strength polyethylene (HDPE), ideal for demanding industrial environments
- High-visibility green color for immediate identification in emergency situations
- Secure locking with key concealed under protective glass
- Quick, ergonomic opening for easy access
- **Dimensions: Height 900 mm x Width 930 mm x Depth 420 mm**
- **Weight: 21 kg**

## Recommended applications

- ATEX zones, chemical or petrochemical industries
- Emergency or rapid intervention vehicles
- Fire safety systems
- Temporary construction sites or outdoor storage areas

## Trust MMF for your industrial safety

When you choose MMF, you benefit from :

- personalized technical advice, tailored to your specific requirements,
- rapid delivery anywhere in France,
- responsive after-sales service, expert in industrial safety solutions and emergency equipment.
