75-litre mobile storage box for industry

The **Unikart mobile storage box** is a practical, durable solution for the **safe transport of materials or equipment** on site. With a **75-liter** capacity, this sturdy box is ideal for storing salt, sand, absorbents, tools or waste in industrial, logistics or municipal environments.

Mounted on two **solid rubber wheels**, the Unikart is easy to maneuver, even on uneven terrain. It features an **ergonomic handle** and **hinged lid**, which remains open for easy access. Its **one-piece rotomolded polyethylene structure** makes it lightweight, waterproof, shockproof and UV-resistant.

The lid is locked by a **reinforced plastic toggle** which can be fitted with a padlock (not supplied), and a **rubber gasket** ensures dust and weather tightness.

Available in three high-visibility colors (yellow, red, green), this case is suitable for all demanding environments.

Technical specifications

Capacity: 75 L
Dimensions: H 1070 × W 590 × D 435 mm
Weight: 11 kg
