

## Manikin susie adult female basic care

### Product features:

Age: Adult

Category manikins: Mannequin de simulation médicale

Reference: 32768

EAN13: -

The **Susie simulator** is a **manikin adult nursing** simulator, designed for practical training in IFSI, health-social vocational colleges or medical simulation centers. Thanks to its life-size, anatomical realism and flexible articulations, Susie enables learners to master **comfort, hygiene and technical care** in a safe teaching environment.

Trainees can practice a wide range of procedures: **complete grooming, oral hygiene with removable dentures, eye care, ear irrigation, bandaging**, but also **vaginal douches, gynecological smears** and **female urinary catheterization**. The manikin can also be fitted with additional options for **intramuscular injections, tracheostomy, ostomy and pressure sore care**.

Susie is removable at the waist for easy storage, and stands up to intensive teaching use.

---
