

Flashlight PELI™ SABRELITE 2010Z0 ATEX Zone 0

ATEX Zone 0 Torch Peli™ 2010Z0 LED SabreLite™

The ATEX Zone 0 Peli™ 2010Z0 flashlight, also known as the SabreLite™, is a compact and robust LED flashlight, ideal for use in hazardous and potentially explosive environments. Thanks to its ATEX Zone 0 certification, it meets the strict safety standards for areas where the risk of explosion is greatest, both from the presence of gases and in dusty atmospheres. This flashlight provides optimum protection for the user, while offering an intense, long-lasting light.

Features of the ATEX Zone 0 Peli™ 2010Z0 flashlight:

- **Lamp type:** LED
- **Model:** Sabre Lite™ 2010Z0
- **Light output:** 129 lumens
- **Illumination range:** 135 meters
- **Luminous intensity:** 4,582 candelas
- **Operating time:** up to 22 hours with 3 LR14 batteries
- **Dimensions:** 20.6 cm long
- **Weight:** 380 g with batteries
- **Protection rating:** IPX7 (waterproof)
- **ATEX certification:** CE Ex II 1 G Ex ia IIC T4 T3 Ga (gas) / CE Ex II 1 D ia IIIC T135°C T200°C Da IP6X (dust)
- **Materials:** Unbreakable ABS body and shockproof lens
- **Switch:** Rotating to prevent accidental triggering
- **Hanging clip:** for attaching torch to clothing or bag
- **Battery protection:** Integrated shock absorber block

Advantages of the Peli™ 2010Z0 ATEX Zone 0 flashlight:

- **Maximum safety :** With its ATEX Zone 0 certification, this flashlight is designed for safe use in environments with a high risk of explosion, such as in the oil, chemical, or mining industries. It ensures that no sparks are generated during use.
- **Robust design:** its shockproof lens and unbreakable ABS housing enable the lamp to withstand the most

extreme working conditions. It is also waterproof to IPX7, meaning it can be submerged in water up to 1 meter deep without being damaged.

- **Practical and ergonomic:** the rotary switch prevents accidental triggering while ensuring a comfortable grip. Its clip attachment makes it easy to attach to clothes or bags, freeing your hands for other tasks.
- **Autonomy and performance:** Despite its compact size, the lamp delivers an impressive 22 hours of autonomy from 3 LR14 batteries, enabling extended use without the need for frequent battery changes. What's more, it offers powerful light with a range of 135 meters, ideal for illuminating large, dark areas.

Uses:

The Peli™ 2010Z0 Sabre Lite™ LED flashlight is particularly suited to professionals operating in hazardous environments, such as:

Oil and gas industries, where flammable gases are frequently present.

Mining areas and chemical sites, where explosive atmospheres can occur.

Work outdoors or in difficult weather conditions, thanks to its IPX7 protection rating (against water and humidity).

First-aiders and maintenance teams in high-risk areas.

The Peli™ 2010Z0 ATEX zone 0 flashlight is the **essential tool** for all professionals who have to work in hazardous areas or extreme environments. Thanks to **its robust design, ATEX certification**, and high-performance technical features, it offers a **reliable, safe and durable** lighting solution. Whether you're on an oil or mining site, or in any other high-risk situation, this flashlight will enable you to operate safely while benefiting from **powerful, self-contained lighting**.
