

MMF pouch for Peli™ RALS 9430 9480 9490 headlamp charger

A pouch designed for efficiency in the field

This MMF pouch has been specially developed to store and protect the charger of Peli™ RALS headlamps models 9430, 9480 and 9490. Made from tough polyester fabric, it is perfectly suited to the constraints of demanding environments: emergency interventions, construction sites, industrial or railway areas.

Technical specifications

- Compatibility: Peli™ RALS 9430, 9480, 9490 chargers
- Material: reinforced nylon fabric with Velcro fastening
- Color: Red with black edging - embroidered MMF.fr branding
- Fastening: Adaptable strap for quick attachment
- Protection: Absorbs light shocks, protects against dust and moisture
- Use: Secure charger transport with spiral cable retention

Designed for demanding professionals

This cover is an essential accessory for all users of RALS projectors in operational environments. It improves efficiency, organization and the durability of your equipment.

Developed by MMF, an authorized PELI™ dealer and specialized maintenance center.
