

## 5-litre hydrocarbon plastic jerrycan

### Approved fuel jerrycan - robust and reliable

This **5 L hydrocarbon plastic jerrycan** is specially designed for the safe transport and storage of fuels and oils. Made from **high-density polyethylene**, it complies with UN transport standards, is UV-resistant, flexible in the cold and durable over time.

### A practical, safe jerrycan

Its compact, stable design (wide base) makes it easy to handle. The rigid spout is cleverly housed inside the cap to prevent any risk of leakage. The stopper is held in place by a safety clip, guaranteeing reliable closure during transport.

### Technical specifications

- Capacity: 5 L
- Material: high-density polyethylene, UN-approved
- Dimensions: length 32.1 cm x width 17.8 cm x height 18.2 cm
- Weight: approx. 450 g
- Integrated rigid spout
- Wide base for stability
- Secure cap attachment
- Guaranteed Origin France standard

### Areas of use and safety

Suitable for private individuals and professionals requiring safe fuel storage (lawnmowers, small machines, hand-held tools or brushcutters), this jerrycan offers a reliable solution for travel or work. Compliant with the requirements for transporting hazardous products, it ensures safe handling in the professional environment.
