

10 mouthpieces for manikin child CPR Kyle

Essential accessory for pediatric CPR training

Designed for pediatric cardiopulmonary resuscitation trainers, this pack of 10 mouthpieces ensures impeccable hygiene during training sessions. Compatible with the manikin pediatric Kyle (3 years old), each mouthpiece clips on or off in just 2 seconds, without the need for tools or complex disassembly.

Hygiene and training in complete safety

When used with a disposable breathing system, these mouthpieces limit the risk of cross-contamination between learners. Quick and easy replacement means that exercises can continue without interruption and without internal cleaning of manikin.

Technical specifications
