

## 100 lungs airways for manikin Sani-Man

### Breathing accessories for manikin adult Sani-Man

Distributed by **MMF Protection et Sécurité** this pack contains 100 disposable breathing systems designed exclusively for the **manikin adult Sani-Man**. Each unit includes a single-use facepiece and lung, enabling **cardiopulmonary resuscitation (CPR)** training sessions without the risk of cross-contamination.

### Hygienic, continuous CPR training

Designed for easy changeover between each trainee, these disposable systems enable training sessions to be repeated without disinfecting manikin. They provide a hygienic, safe environment that complies with current standards for **life-saving training**.

### Technical specifications

- Packaging: pack of 100 units (facepiece + disposable lung)
- Compatibility: **manikin adult Sani-Man**
- Material: latex-free - single use
- Quick replacement - no disinfection required
- Use: adult CPR training, group sessions

### Importance of CPR training with hygienic equipment

Disposable replacement lungs ensure clean, safe CPR training. They enable effective simulation of artificial ventilation on manikin adult while respecting essential hygiene rules during group training.

### Recommended for

This pack is essential for **training centers, first aid schools, fire, rescue and health services**, where hygiene and speed of use are priorities.

### Distribution MMF Protection et Sécurité

MMF Protection et Sécurité offers these **Sani-Man replacement lungs** with fast delivery and professional service, tailored to the needs of demanding CPR trainers.
