

6-piece foam for Peli™ 1620 case

Tailor-made protection for the Peli™ 1620 suitcase

Distributed by **MMF Protection et Sécurité**, the **6-piece Foam for Suitcase Peli™ 1620** lets you rearrange or replace the interior of your rugged carrying case. Thanks to the pre-cut foam in Pick N Pluck cubes, you can easily create a bespoke layout to suit your tools, instruments, electronics or tactical equipment.

Easy to customize and use

This set includes a 5.1 cm corrugated polyurethane lid foam, four 6 cm Pick N Pluck foam sheets (pre-cut 1.5 cm squares), and a 2.5 cm solid foam base. A simple, fast and effective solution for securing your equipment against shock and vibration.

Technical specifications

- Reference: 1621 - Foam 6 pieces
- Compatibility: Peli™ Protector 1620 case (and 1620M model with wheels)
- Composition
 - 1 corrugated foam (5.1 cm) for the lid
 - 4 pre-cut Pick N Pluck foams (6 cm)
 - 1 solid foam (2.5 cm) for the base
- Material: tough, durable, modular polyurethane foam

Recommended applications

Ideal for **law enforcement officers, firefighters, first-aiders, photographers or technicians**, the 6-piece foam effectively protects sensitive equipment during transport and intervention. It guarantees a secure hold and complete customization.
