

4-piece foam for Peli™ IM2100 case

Description

The **4-piece Foam Kit** is a practical set for customizing the interior of your *Peli™ IM2100 Storm Case*. Consisting of pre-cut foams (Pick N Pluck) and a sturdy insert, this kit allows you to create a bespoke padding without complicated tools.

Kit includes :

- 1x convoluted foam for lid (approx. 5.1 cm thick)
- 2x "Pick N Pluck" foam for the base (approx. 4.3 cm thick, 0.50" x 0.50" cubes)
- 1x solid foam for base (approx. 1.6 cm thick)

Features

- Material: soft, dense Ether polyurethane foam, designed to absorb shocks effectively
- Pre-defined Pick N Pluck foams for fast, precise adjustment
- Layered thicknesses (convoluted, cubed, solid) for balanced, modular protection
- Compatible specifically with the *Peli™ IM2100 Storm Case*

Benefits

- **Protection adapted to your equipment:** quickly shape the interior to the shape of your equipment for optimum support
- **Intuitive installation:** place equipment, mark, remove unnecessary squares
- **Laminated solution:** different thicknesses offer a combination of comfort and stability
- **Robust material:** durable foam to withstand demanding conditions

Use

1. Place the convoluted foam in the case lid.
2. Place Pick N Pluck foam in the base, followed by solid foam.
3. Lay out your equipment, mark the contours with a ribbon or pencil, then remove the cubes to adapt the

cushioning.

4. Leave at least 2.5 cm of foam between your equipment and the walls for effective protection.
5. Reinstall the foam, place your equipment and check the fit before closing the case.

Conclusion

The **Peli™ IM2100 4-Piece Suitcase Foam** offers you a simple and effective solution for organizing and protecting your gear inside your suitcase. Thanks to its high-quality Pick N Pluck foam, it combines ease of use, customization and sturdiness. Perfect for professionals and adventurers wishing to transport their equipment in complete safety.
