

3-piece foam 1171 for Peli™ Protector Suitcase 1170

3-piece foam set 1171 for Peli™ 1170 Protector Case

The **Peli 1171 foam set** is an accessory designed to customize the interior of your **Peli 1170 Protector Case**. It allows you to create a compartment perfectly suited to your equipment, while retaining the case's robust protections and waterproofing.

Easy customization for optimum protection

Foams are pre-cut into small cubes (Pick N Pluck), allowing you to simply mark your equipment (with tape or chalk) and extract the cubes effortlessly. Always leave at least one centimeter between the object and the case wall to ensure effective shock absorption.

3-piece kit contents

- 1 convolutive foam (2.8 cm) for lid
- 1 Pick N Pluck foam (3.8 cm, 1.27 cm x 1.27 cm squares) for the base
- 1 solid flat foam (1.3 cm) for base

Product compatibility

This kit is specially **compatible with the 1170 Protector Case**, allowing you to optimize its use according to your transport or storage needs.

Key benefits

- **Simple**, tool-free **installation** - self-adjusting foam cutting
- **Customized protection** for your equipment, reducing the risk of shock and internal movement
- Well-fitting foam **maintains the case's IP67** rating

Why choose it?

The **1171 foam kit** offers a fast, versatile solution for protecting all types of equipment on the move. Ideal for professionals (technicians, photographers, engineers...) looking for a perfectly fitted, secure interior.
