

2644 Peli™ halogen bulb for 2640 headlamp

Description

Designed exclusively for the **Peli™ HeadsUp Lite™ 2640 headlamp**, this replacement halogen bulb (part number 2644) guarantees reliable, high-performance lighting. Easy to install, it extends the life of your lamp while retaining the original light output.

Features

- Compatibility: only with Peli™ HeadsUp Lite™ 2640 lamp
- Type: high-performance halogen bulb
- Quick and easy installation without special tools
- Power supply: runs on 4 AA batteries (not included)
- Manufacture: Made in USA

Benefits

- **Easy replacement** thanks to simple, intuitive assembly
- **Optimum light performance** with uniform, round beam
- **Enhanced durability** thanks to robust design
- **Genuine Peli™ product**, a guarantee of quality and reliability

Use

1. Unscrew optics ring.
2. Remove reflector and spring assembly.
3. Remove the old bulb.
4. Using a soft cloth, gently insert the new bulb into the holes without directly touching the glass.
5. Replace reflector and close optics cover.
6. Switch on the lamp and adjust the beam by turning the ring until a uniform light is obtained.

Caution: touching the bulb with bare hands may cause premature wear. Dispose of the used bulb in a container suitable for special waste.

Conclusion

The **Peli™ HeadsUp Lite™ 2640 replacement halogen bulb** (ref. 2644) is the essential accessory for maintaining the performance and reliability of your headlamp. Easy to install and built to last, it ensures constant, safe lighting, ideal for your professional missions or demanding outdoor activities.
