

Xenon 3754 Peli™ bulb for BIG ED™ lamp

Xenon lamp replacement module for Pelican™ BIG ED™ RECHARGEABLE rechargeable floodlight

The Pelican™ BIG ED™ RECHARGEABLE **xenon replacement module** is designed exclusively for this rechargeable headlamp. It guarantees **superior lighting performance** and offers a simple, reliable and durable solution.

Pelican™ BIG ED™ lamp module description

This **essential replacement part** is specially designed for the **Pelican™ BIG ED™ rechargeable floodlight**. Optimized for **NiCad (NiCd)** batteries, it provides an intense, constant beam of light. This module is a complete block: no need to try to disassemble it, it can be replaced in a single step.

Key features

Xenon replacement lamp module

Provides a **powerful, concentrated beam**, ideal for demanding work environments and missions requiring high light intensity.

Made in the USA

Made in the USA, a guarantee of quality, durability and consistent performance.

Designed for rechargeable headlamps

Specially designed to work with the **BIG ED™ RECHARGEABLE headlamp's NiCad** batteries, ensuring perfect compatibility and optimum light output.

Benefits of the Pelican™ BIG ED™ replacement module

High light output

Xenon technology delivers a bright, white and powerful light, ideal for enhanced visibility in all conditions.

Quick and easy installation

Replacement requires no complex disassembly: simply unscrew the lens, remove the old module and install the new one.

Reliability and compatibility

Designed to integrate perfectly with the **Pelican™ BIG ED™ RECHARGEABLE floodlight**, this module ensures **long life** and consistent performance.

Replacement instructions

1. Unscrew the lens ring and remove it.
2. Remove the old lamp module.
3. Insert new xenon lamp module.
4. Tighten lens ring in place.

Warnings

- **Do not disassemble** the used lamp module: dispose of it in its entirety in a suitable container.
- For use only with the **Pelican™ BIG ED™ rechargeable headlamp** (incompatible with any other model).

Conclusion

The **Pelican™ BIG ED™ RECHARGEABLE xenon lamp replacement module** is the ideal solution for extending the life of your headlamp. With its **exceptional light output**, reliability and easy installation, it ensures optimum performance in all circumstances.
