Xenon 5003 Peli™ bulb for Laser Pro™4D lamp

Xenon double filament lamp module for PELI LaserPro 4D - Ref. 5003

Key features

The **PELI 5003 LaserPro 4D** replacement lamp is a **double-filament** Xenon module designed to deliver exceptional light intensity while ensuring enhanced operational safety thanks to its **fail-safe design**. It emits a **high-intensity collimated laser beam** perfect for demanding professional environments.

- Technology: Double filament Xenon lamp
- Beam: High-intensity collimated sharp laser
- Safety: Designed with safety back-up
- Manufacturer reference : PELI 5003
- Series: LaserPro 4D

Compatibility

This module is designed specifically for **PELI LaserPro 4D** torches. We recommend using only genuine PELI parts to ensure performance and safety.

Compatible with LaserPro 4D models only. Not compatible with other PELI lamps or brands.

Easy installation

Replace your old lamp quickly:

1. Switch off and open your LaserPro 4D lamp
2. Remove the old module
3. Insert the Xenon PELI 5003 lamp into its housing
4. Close the lamp and test

Caution: Do not disassemble the module. Dispose of used lamps at a suitable collection point.

About PELI Products

PELI Products is a world-renowned manufacturer of rugged, professional lighting equipment. Designed to meet the highest standards, PELI products are used in demanding environments such as emergency services, law enforcement, industry and exploration.

With the 5003 module, PELI offers a durable, reliable and powerful solution for extending the life of your LaserPro 4D lamps.

Precautions for use

- For use with PELI LaserPro 4D torches only
- Do not disassemble or modify the module
- Avoid contact with hot bulb
- Dispose of used modules in a special waste container
