

Headlamp PELI™ 2690Z0 Atex Zone 0

Peli™ 2690Z0 ATEX Zone 0 headlamp - Safe lighting for hazardous environments

Discover the [Peli™ ATEX Zone 0 headlamp](#) from our professional lighting range. The **Peli™ 2690Z0 headlamp** is specially designed to comply with the strictest **ATEX** standards, including **Zone 0 (Category 1)**. This **ATEX headlamp** is equipped with two headbands, allowing secure attachment to a helmet or use directly on the head, guaranteeing comfortable wear in all situations.

The body of the **Peli™ 2690Z0 ATEX headlamp** offers simple orientation, enabling optimum illumination. The LED illuminates efficiently, with a light output of 74 lumens. Lightweight at just 116 g, this **Peli™ headlamp** ensures a battery life of up to 11 hours.

ATEX Zone 0 Peli™ LED 2690Z0 headlamp features:

The **ATEX Zone 0 Peli™ LED 2690Z0 headlamp** meets the needs of professionals operating in demanding environments. **ATEX Zone 0** certified, it guarantees maximum safety in compliance with the latest **ATEX** directive. Made from waterproof, impact-resistant ABS, this **Peli™ headlamp** ensures exceptional durability even in the harshest conditions.

Advantages of the ATEX Zone 0 Peli™ LED 2690Z0 headlamp:

- **Powerful LED lighting:** Thanks to its unique LED, the **ATEX Zone 0 Peli™ LED 2690Z0 headlamp** delivers a stable beam of light with an intensity of 74 lumens and a range of 92 meters.
- **Extended autonomy:** This Peli™ lamp offers up to 11 hours of autonomy, ideal for extended missions.
- **Lightweight and comfortable:** weighing just 116 g (batteries included), the **ATEX Peli™ headlamp** allows for extended wear without discomfort.
- **Robustness:** its waterproof, impact-resistant design makes it a reliable choice for harsh environments.

The ATEX Zone 0 Peli™ 2690Z0 headlamp is particularly useful in the chemical industry, for example.

The lamp delivers a stable light beam of 74 lumens and a range of 92 meters. When inspecting chemical tanks, powerful illumination enables operators to detect leaks or anomalies from a distance, minimizing the risk of accidents; With an operating time of up to 11 hours, the lamp is ideal for extended missions.

Its waterproof, shockproof design makes it a reliable choice for harsh environments. Indeed, in a chemical plant, product splashes can occur. The lamp's water resistance ensures that it operates even in these conditions, while its robustness protects it from shocks in the event of an accidental fall.

Contents of the ATEX Zone 0 Peli™ LED 2690Z0 headlamp:

- 2 headbands (one fabric headband + one rubber headband)
- 3 AAA batteries (LR03)

Certification and standards:

- **ATEX certification:** CE Ex I M1 Ex ia 1 Ma (mines); CE Ex II 1 G Ex ia IIC T4 Ga (gases); CE Ex II 1D Ex ia IIIC T65°C Da (dusts)
- **Product number:** 026900-0102-110E
- **Customs code:** 85131000
- **EAN** 19428147648
