Use

This signal cone is used to:

- Transform a Peli™ 7060 flashlight into a visible light signalling element (beacon or temporary marker).
- Provide increased visibility during interventions, rescues, worksites or accidents, at night or in low-visibility conditions.
- Set up quickly to secure a perimeter, direct traffic or mark a hazard.

Compatible models

Compatible exclusively with the **Peli™ 7060** flashlight. Not suitable for other models without adaptation.
