

## Helmet holder 0700 for Peli™ torches

### Standard helmet lamp holder

#### Summary

The **Peli 0700 Standard helmet mount** allows secure attachment of a [Peli](#) lamp to a protective helmet. Ideal for situations where freedom of the hands is essential, such as on site or in rescue operations, while ensuring comfort and stability.

#### Detailed contents

- Manufacturer reference: **0700-000-110E**:
- Category: lamp accessories / Peli helmet holder :
- Estimated weight: not publicly available :
- Material / finishes: rigid plastic / components designed for rugged external use (resistant to industrial use) [à vérifier selon lot]:
- Standard finish, single mount, no visible metal parts (base mount) :

#### Use

The 0700 Standard helmet mount is designed for :

- Attaching a Peli lamp to a hard hat to keep your hands free.
- Use in work or intervention environments (construction sites, rescue services, industry, etc.).
- Offer stability, comfort and reliable orientation of light to helmet angles.
- Replace or add a standard bracket to compatible helmets.
