

Helmet holder 0780 for Peli™ torches

0780 Peli™ helmet mount for Peli™ torches

Description

This bracket is a sturdy accessory designed to attach securely to a hard hat. It allows a Peli™ torch to be fitted, to illuminate the work area while keeping hands free. Made by Peli™, it meets the requirements of demanding professional environments.

Features

- Manufacturer's reference: **007800-0100-110E**
- Customs code: **7608202020**
- EAN : **19428131609**
- Brand: **Peli™**
- Category: **Peli™ accessories / Lighting / Helmet holder**
- Manufacture / professional quality

Benefits

- **Freedom of hands:** allows both hands to be used without holding the torch.
- **Enhanced safety:** the torch remains attached, reducing the risk of impact or fall.
- **Comfort:** stable fit on helmet, compatible with standard helmets.
- **Enhanced visibility:** light source aligned with the user's field of vision.

Use

1. Choose a suitable, rigid helmet with a flat front cap, or one with an attachment surface.
2. Position 0780 bracket on front of helmet, at eye level or slightly above for optimum illumination.
3. Securely fasten the bracket using the method supplied by Peli, ensuring that it does not move when you

move it.

4. Clip or insert the Peli™ torch into the holder.
5. Adjust the angle of the torch according to the desired direction.
6. After use, remove the torch and inspect the holder to ensure it remains in good condition.

Compatible models

- Classic Peli™ torches from the hand-held / front-hand-held range
- Small and medium torch models compatible with helmet mounts
- Construction helmets or industrial hard hats with flat front surface
- Note: check torch dimensions before fitting to ensure a good fit
