Steel helmet clip 0750 for Peli™ torch

Peli™ Light 0750 - Universal headset holder

Description

This universal bracket is designed for mounting on standard hard hats or firefighters' helmets. It securely holds a lamp from the Peli™ Light range, offering reliable installation in professional contexts, during rescue operations, industrial interventions or situations requiring both hands free.

Features

- Order no.: **0750-010-000E**
- EAN : **0019428012007**
-
- Helmet compatibility: industrial helmets / standard firefighter helmets :
- Manufacturer: Peli™ / Peli Light Accessories:
- Product type: universal helmet mount for Peli™ headlamps or torches :

Benefits

- **Hands-free use**: allows the user to work or intervene without holding the lamp.
- **Stability and safety**: the holder ensures a reliable hold even on the move or in demanding terrain.
- **Versatility**: compatible with several Peli™ lamp models, suitable for various standard helmets.
- **Operational comfort**: stable light orientation, reduced hand fatigue during long interventions.

Use

1. Choose a suitable helmet (industrial, worksite or rescue helmet) with a compatible front surface or

mounting area.
2. Attach the 0750 bracket to the helmet according to the manufacturer's instructions - make sure it's securely clamped / held in place.
3. Insert the Peli™ lamp into the holder.
4. Adjust the angle of the lamp to align the light beam with the desired field of view.
5. Test stability by moving the head/moving around - make sure the lamp stays securely in place.
6. After each prolonged use, check the attachment and condition of the support to prevent any weakening or slipping.
