

Peli™ 8052OR Traffic Wand Orange for Torch 8050

Peli™ Light 8052OR - Orange traffic cone

Description

This orange-colored diffuser attaches to the Peli 8050 light, allowing you to increase visibility and visually alert those around you. Ideal for utilities, construction sites, security services or emergency interventions. Its bright color and improved cone shape help spread light in all directions, not only forward but also sideways, to maximize attention to the signal.

Specifications

- Reference: **8052OR M11 / 8050-980-150E:**
- EAN : **0019428005337:**
- Color: high-visibility orange (Traffic Warning)
- Included: 1 diffuser/signaling cone for Peli 8050 lamp:

Benefits

- **Visible signaling:** thanks to its fluorescent orange color, it enhances the lamp's visibility, serving as a visual warning.
- **Simple installation:** easily attaches to the Peli 8050 lamp.
- **Versatility:** useful in many situations, such as worksite vehicles, emergency services, low-visibility areas, or to mark out a perimeter.
- **Enhanced safety:** helps prevent accidents or collisions in dark or busy environments.

Use

1. Take the Peli 8050 lamp off or de-energized.
2. Attach the 8052OR cone to the end of the lamp according to the instructions, until it clicks into place.
3. Switch on lamp to diffuse light into cone.
4. Place the converted lamp in a visible position (vehicle-mounted, ground-mounted, hand-held) according to the situation.

5. After use, remove cone if necessary to return to standard lamp function.
