Benefits

- Adjustable beam between spot for long range and flood for wide illumination
- Compact and lightweight, easy to carry on site
- Powered by standard AA batteries, easy to replace in the field
- Robust aluminum construction to withstand harsh conditions
- Good autonomy for prolonged use
- Compatible with many Peli accessories (holster, cones, extension leads)

Recommended use

- Professional use in security, patrol and intervention
- Slide-beam illumination of large or specific areas as required
- Inspection, monitoring, maintenance, daily tactical use
- Easy transport in pocket, bag or dedicated case

Compatible models & accessories

The Peli 2380 torch works with standard Peli accessories such as :

- Cordura holster 2377 for secure transport

- Signal cones 2322OR / 2322YW (wands) for light signaling
- Peli extension cords, lighting brackets and adapters

FAQ / Frequently asked questions

Are AA batteries included?

Yes, the torch is supplied with 2 AA alkaline batteries for immediate use.

Is it easy to switch from spot to flood beam?

Yes, thanks to Slide-Beam technology, switching is instantaneous and requires no complex manual adjustment.

Is it waterproof?

Yes, it is IPX4 splashproof, but not designed for prolonged immersion.

Can I use AA rechargeable batteries?

Yes, as long as they match the standard AA format, the torch will work in a similar way.
