

7110 Peli™ tactical torch

Peli™ 7110 tactical torch - 445 lumens with programmable modes & multi-battery

Technical specifications

- **Maximum output:** 445 lumens (with CR123 battery)
- **Lighting modes:** High, Strobe, Medium, Low - 4 programmable modes
- **Programs:** 5 light sequences selectable according to use
- **Battery compatibility:** 1 AA or 1 CR123 battery
- **Battery indicator:** real-time display of charge level
- **Body/finish:** Type III anodized aluminum, sturdy and resistant
- **Waterproofing:** IPX8 rating (immersion possible)
- **Beam distance:** ~ 93 m (high mode)
- **Dimensions:** length approx. 11.8 cm (4.63?)
- **Weight:** ~ 116 g with batteries, ~ 91 g without
- **Components & optics:** AR lens (anti-reflective), NBR O-ring seal
- **Clip:** high-strength steel clip for attachment to pocket or belt
- **Warranty:** lifetime Peli warranty (against breakage & manufacturing defects)

Benefits & highlights

The Peli 7110 torch boasts many qualities that make it an excellent choice for demanding users:

- **Versatile power supply:** the option of using an AA or CR123 battery offers great flexibility on missions.
- **High output:** up to 445 lumens for long-range illumination (approx. 93 m)
- **Programmable modes:** with 5 programs, users can define the sequence best suited to their needs (e.g. High > Strobe > Low, High only, etc.)
- **Compact and lightweight:** reasonable size (11.8 cm) and low weight, while remaining robust.
- **Permanent battery indicator:** no more low-battery surprises at the wrong time.
- **Robust construction:** type III anodized aluminum, AR lens, waterproof seals: resistant to shocks and harsh conditions.
- **IPX8 waterproofing:** withstands immersion (approx. 1 m), ensuring reliability in wet or rainy conditions.
- **Steel clip:** for easy attachment to pouches, belts or tactical equipment.

Recommended use & scenarios

The Peli 7110 torch is designed for professional or intensive use where reliability and performance count. Here are some typical scenarios:

- Security officers, police, law enforcement: tactical lighting, intervention, night patrol.
- Rescue & emergency operations: lamps for inspection, search, night rescue.
- Industrial work or work in dark environments (factory, drilling, inspection).
- Outdoor use, hiking, camping where a powerful, reliable beam is required.
- Water activities or wet conditions, thanks to IPX8 waterproofing.

Compatibility & accessories

The Peli 7110 is compatible with several accessories to optimize its use:

- Nylon / Cordura 7116 holster
- Plastic / rigid cases / extension clips
- Spare batteries: CR123, AA (alkaline or NiMH rechargeable)
- Brackets, collars, tactical accessories compatible with Peli 7 series (7110, 7610, 7620)

FAQ - Frequently asked questions

Which batteries should I use with the Peli 7110?

You can use either an AA battery (alkaline or rechargeable) or a CR123 battery, depending on power and runtime.

What is the exact luminous flux depending on the battery?

With a CR123: up to 445 lumens. With an AA: around 229 lumens in high mode, according to some sources.

How many modes and programs does the torch offer?

Is it waterproof?

Yes, it has an IPX8 rating, which means it can be submerged to a depth of around 1 meter.

Can the clip or case be replaced?

Yes, compatible accessories are available, including the 7116 nylon holster.

Is this torch directly rechargeable?

No, it doesn't have a charging port: it runs on batteries. You must charge or replace the batteries according to their type (AA rechargeable or CR123 non-rechargeable).

Terms of delivery & returns

Delivery: Shipment from our MMF warehouse, with tracking. Estimated delivery times are 2 to 5 working days for mainland France, subject to stock availability.

Returns: In accordance with regulations, returns are accepted within 14 days of receipt, provided that the torch is unused, complete (batteries not used, packaging intact) and in its original packaging.
