

## Peli™ 2322YW Yellow Traffic Wand for M6 Torch

### **Peli™ 2322 M6 Yellow signal cone - Accessory for Peli torches**

The Peli 2322 M6 Yellow Signaling Cone is made of durable plastic and designed to fit perfectly with Peli's M6 and M1 series torches. It's ideal for security guards, law enforcement, night workers and anyone who needs clear, visible signage in low-light environments.

The cone is designed for maximum visibility, yet is lightweight and easy to carry. It is particularly useful for roadside interventions, security checks and any situation requiring clear, effective signage.

#### **Benefits & highlights**

By using the Peli 2322 M6 Yellow traffic cone, you benefit from a simple, effective solution for improving visibility during your operations. Its robust design and compatibility with several Peli torch models make it an ideal choice for professionals requiring reliable, durable signage.

#### **Recommended uses**

This cone is particularly suitable for :

- Security guards on night patrols
- Law enforcement officers on roadside checks
- Night workers requiring clear signage
- Work on the road or in poorly lit environments

## **Compatibility & accessories**
