

F1/F2 helmet mount ring for rechargeable torch 3335RZ0

Detailed description

Perfect compatibility with F1 and F2 helmets

Specially designed for F1 and F2 helmets, this ring adapts perfectly to the original brackets. It ensures reliable attachment of the 3335RZ0 torch, ideal for users who need precise, hands-free lighting.

Robust design in engineering plastic

The product image shows a one-piece body in **reinforced black plastic**, designed to withstand impact, repeated stress and the harsh conditions encountered by firefighters, first-aiders or security guards. Its maximum durability guarantees a long service life, even in an operational environment.

Simple installation and secure hold

The ring is easily fitted, without tools, to the F1 or F2 helmet bracket. Once in place, it holds the 3335RZ0 torch firmly in place, preventing any movement or vibration that might hinder work.

Indispensable accessory for all operations

Thanks to its reliable locking system, this ring becomes an essential element for night missions, in confined environments, in smoke or in low-visibility areas. It enables the user to remain focused on the task in hand, with stable, directional lighting.

Technical specifications

- **Torch compatibility:** Rechargeable model 3335RZ0
- **Helmet compatibility:** F1 and F2 helmets
- **Material:** High-performance, impact-resistant plastic
- **Color:** Black
- **Mounting:** Quick-fit, no tools required

- **Usage:** Interventions, rescue, security, industry

Key benefits

- Reliable, secure torch mounting
- Ruggedness for extreme environments
- Perfect compatibility with F1/F2 helmets
- Quick and easy to install
- Provides stable, hands-free lighting

Recommended applications

- Fire services
- Rescue and civil protection
- Work in confined or dark environments
- Industrial safety and technical maintenance

Why choose this F1/F2 ring for 3335RZ0 torch?

This ring has been designed for optimum, long-lasting hold. Its robust design, precise compatibility and ease of assembly make it an essential accessory for all professionals who need reliable, stable, uncompromising lighting.
