

## Flashlight PELI™ 1910B

The PELI™ LED 1910 ultra-compact aluminum torches are pocket-sized pieces of equipment that combine style and functionality. Designed to offer quality light with a modern, practical design, these torches are powered by one AAA battery, immediately available and easy to replace. They emit an ultra-net white beam, offering clear visibility in a variety of situations. Their robustness and extended battery life make these torches an indispensable tool for effective lighting, whether for everyday use or in more extreme conditions.

### Features:

- **Brightness:** 106 Lumens for a powerful, precise beam.
- **Power supply:** Operates on one AAA battery, easy to change and available anywhere.
- **Switch:** On/Off momentary switch for rapid activation.
- **Protection:** IPX7 standard, offering protection against water and weather.
- **Lighting modes:** 2 intensity levels - low and high, to adjust light output as required.
- **Material:** High-quality aluminum, lightweight and durable.
- **Dimensions:** Ultra-compact, easy to carry and store.

### Advantages:

- **Compact:** Its small size makes it easy to carry around in a pocket or bag.
- **Energy efficiency:** Thanks to its AAA battery and lighting mode, the torch ensures long runtime with low power consumption.
- **Versatility:** With its two lighting modes, this torch is suitable for a variety of uses, whether for outdoor activities, repairs or emergency situations.
- **Resistance:** IPX7 protection ensures optimal operation even in wet conditions, making the torch ideal for outdoor use.
- **Ease of use:** Its instant On/Off switch and power supply from a single AAA battery make handling quick and convenient.

### Use:

Ideal for outdoor activities such as hiking, camping or night-time walks, the 1910 torch is also perfect for domestic use as an emergency flashlight, for repairs or during power failures. Thanks to its water protection, it can be used in damp environments or in the rain without risk of failure.

The ultra-compact 1910 LED torches are reliable, high-performance lighting tools. Their elegant design, powerful 106 lumen light and extended battery life make them the essential accessory for optimum visibility in any situation. Whether you're hiking, traveling or at home, these torches are ready to take you anywhere. Simple, effective and rugged, they're the ideal personal lighting tool.
