Waterproof carrying case Peli 0370

The **PELI 0370 waterproof case** is a protective solution designed for the safe transport of sensitive equipment in the most demanding environments. This **professional protective case** effectively protects equipment against shock, dust and humidity. Thanks to its **high-capacity cube format**, it can carry bulky equipment while guaranteeing a high level of protection. Robust and reliable, this **PELI shockproof case** is particularly well-suited to professionals needing a durable solution to protect and transport their technical equipment.

Technical specifications

The **PELI 0370 protective case** is made of **high-strength structural resin**, enabling it to withstand the most demanding conditions of use.

- **IP67 waterproof certification** protects against dust and temporary immersion in water
- **Automatic pressure-regulating valve** balances internal pressure without letting moisture in
- **Robust double-action latches** for secure closure
- **Reinforced stainless steel hinges** guarantee durability
- **Ergonomic handles and sturdy wheels** for easy transportation
- **Optional foam padding** to adapt the interior to the material being transported

Thanks to its robust design, this **waterproof transport case** provides reliable protection for sensitive professional equipment.

Use

The PELI **0370 professional waterproof case** is ideal for transporting and protecting technical equipment requiring maximum protection.

In particular, it is used for :

- **transporting electronic or IT equipment**
- **protection of measuring devices or technical instruments**
- **transporting audiovisual or photographic equipment**
- **protection of industrial or safety equipment**

Thanks to its resistant, watertight structure, this **protective case for sensitive equipmer** suited to **industrial environments, construction sites, laboratories or field operations**.

PELI 0370 benefits

Optimum equipment protection:
The reinforced structure and IP67 waterproofing guarantee effective protection against shock, humidity and dust.

Large storage capacity:
Its cube format enables bulky equipment to be transported while ensuring its protection.

Easy transport:
Ergonomic handles and sturdy wheels make it easy to move the case, even when carrying heavy equipment.

Professional reliability:
Designed for demanding environments, the PELI 0370 offers excellent durability and reliable equipment protection.

Field issues

Is the PELI 0370 waterproof?

Yes, the **PELI 0370 waterproof case is IP67 certified**, which means it effectively protects equipment from dust and can withstand temporary immersion in water.

What equipment can be carried in the Peli 0370?

Thanks to its **large-capacity cube format**, the **Peli 0370 waterproof transport case** can carry a wide variety of**sensitive professional equipment**: electronics, measuring instruments, audiovisual equipment and industrial equipment.

It can be fitted with **customizable protective foams** to adapt the interior to the shape of the equipment and ensure it stays in place during transport. Depending on requirements, **optional castors** can also be added to facilitate movement, improving**transport ergonomics** and limiting handling effort. This makes the Peli 0370 a **reliable and versatile solution** for the safe transport of equipment in demanding environments.
