Manikin de formation TEE-UU CRASH & CARRY - Adult rescue simulation

The **adult CRASH & CARRY TEE-UU** is a professional training manikin designed for training rescue, fire and first responder teams. It simulates realistic evacuation, care and rescue situations.

Ultra-light and easy to transport, this manikin is equipped with an integrated carrying system, enabling scenarios to be set up quickly by a single operator.

Realistic, educational simulation

- 14 hook-and-loop zones for injury simulation
- Compatible with various training scenarios
- Possibility of adding trauma simulations
- Helmet removal and cervical immobilization training

Easy to transport and use

- Integrated rucksack-type carrying system
- One-person transport
- Quick installation on exercise area

Robust design

- High-strength 1680D TEC Polyester fabric
- Highly durable PVC inner lining
- Reinforced seams for intensive use

Professional applications

- Firefighter training
- Victim assistance training (first aid, SST)
- Intervention simulation in difficult environments
- Fire and rescue drills

Technical specifications

Specifications	Values
Type	Manikin rescue training
Dimensions (W x H x D)	70 x 170 x 22 cm
Weight (without filling)	? 2 kg
Material	1680D TEC Polyester with PVC coating
Carrying system	Integrated, backpack-style
Simulation zones	14 hook-and-loop zones
Color	Black
Application	Fire and rescue training

Scope of delivery

- Manikin CRASH & CARRY **(unfilled)**
- Access to downloadable injury simulations

MMF expertise

Distributed by MMF, this manikin training tool meets the requirements of safety, fire and rescue professionals, for realistic and effective training.
