Waterproof carrying case Peli 0340

The **Peli 0340 waterproof case** is designed to effectively protect **sensitive and bulky equipment** during transport and storage in demanding environments. Part of the **Peli Protector** range, it is renowned for its robustness and reliability in the field.

Its shock-resistant structure, combined with a **high-performance O-ring** seal, guarantees optimum protection against water, dust and splashes. Certified **IP67**, this **waterproof protective case** is completely dust-tight and resistant to temporary immersion.

A cube format designed for professional needs

Thanks to its **large-capacity cube format**, the **Peli 0340** optimizes storage and transport of bulky equipment. It features an **automatic pressure-balancing valve**, making it easy to open after pressure variations, while preventing moisture from penetrating.

Its **double-action closures** ensure simple, safe operation, even in demanding conditions. Its robust design guarantees excellent durability in intensive use.

Why choose the Peli 0340 waterproof case?

- **High-capacity cube format** ideal for bulky equipment
- **IP67 water-** and**dust-tightness**
- **High impact resistance** for demanding environments
- **Automatic pressure relief valve** for ease of use
- Double-action**safety locks**
- **Robust design** from the Peli Protector range
- **Limited lifetime warranty**

Professional applications

The **Peli 0340 case** is ideal for transporting bulky, sensitive equipment such as electronics, measuring instruments, audiovisual equipment or industrial equipment. It is particularly suited to professionals in industry,

maintenance, security or field service.

What equipment can be carried in the Peli 0340?

Thanks to its **large-capacity cube format**, the **Peli 0340 case** can carry a wide variety of**sensitive professional equipment**: electronics, measuring instruments, audiovisual equipment or industrial equipment. It can be fitted with **customizable protective foams** to adapt the interior and hold equipment securely in place during transport.

Does the Peli 0340 make it easier to transport bulky equipment?

Yes, the **Peli 0340 waterproof transport case** is designed for **transporting bulky, sensitive equipment**. As an option, it can be fitted with **reinforced castors**, making it easier to move large loads, particularly on industrial or outdoor surfaces.

This configuration improves**handling ergonomics** by limiting the effort required to move the equipment, while ensuring good stability. Combined with its **sturdy structure** and **carrying handles**, the Peli 0340 is a **reliable and durable solution** for the safe transport of equipment in demanding conditions.
