

## Waterproof carrying case Peli 1610

The **Peli 1610 waterproof transport case** is designed to **protect sensitive, bulky or fragile equipment** in intensive use. Its robust structure guarantees excellent resistance to **shock, water and dust**, even in harsh environments.

Thanks to its large capacity, it is perfectly suited to the needs of professionals in industry, maintenance, field intervention or the transport of technical equipment.

### **Integrated transport system with wheels for ease of use**

The **Peli 1610 comes standard with sturdy wheels** and an **ergonomic telescopic handle**, making it easy to move large loads without the need for additional accessories. This integrated system offers an immediately operational solution for transport in the field.

Its design combines **mobility, sturdiness and ease of use**, even when moving frequently or over uneven surfaces.

### **Shock-proof, waterproof protection for your equipment**

Made from high-strength materials, this **professional shock-proof case** effectively protects its contents against impact, vibration and external aggression. Its waterproof system prevents any infiltration of water or dust.

Perfect for transporting **electronic equipment, measuring instruments, industrial equipment or sensitive components**.

### **A versatile solution for professionals**

The **Peli 1610 case** is suitable for a wide range of uses:

- Transport of industrial or technical equipment
- Protection of sensitive electronic equipment
- Field service and maintenance
- Audiovisual applications

**What's the difference between the Peli 1610 case and the 1610M version?**

The **Peli 1610 case** is designed for the **safe transport of sensitive and bulky equipment** in demanding environments. It offers an excellent compromise between **protection, capacity and ease of movement**, thanks to its **integrated wheels and telescopic handle**, making it ideal for versatile use in the field.

The **Peli 1610M** version is geared more towards **intensive mobility needs**, particularly for frequent travel and carrying heavy loads over long distances.

### **Is the Peli 1610 ready for transport?**

Yes, it has **integrated wheels and a telescopic handle**, enabling immediate transport without the need for additional accessories, while guaranteeing excellent maneuverability.
