

Peli 1640 waterproof carrying case

A waterproof transport case designed for bulky equipment

The **Peli 1640 waterproof transport case** is specially designed to **protect bulky and sensitive equipment** when travelling in demanding environments. Thanks to its **IP67** certification, it guarantees total water and dust tightness, while offering excellent shock resistance.

Its high-resistance polymer structure absorbs impacts and effectively protects hardware, even under intensive use conditions.

Large storage capacity for field use

Thanks to its large interior volume, the **large-format waterproof case** can carry :

- Bulky technical or industrial equipment
- Emergency and response equipment
- Sensitive instruments requiring extra protection
- Electronic or audiovisual equipment

Perfectly suited to the needs of professionals looking for a **reliable solution for the secure transport** of bulky equipment.

Easy mobility despite its large capacity

The **Peli 1640** is equipped with **sturdy wheels** and **ergonomic handles**, enabling smooth transport even on uneven surfaces.

It is designed to accompany professionals on frequent trips, while guaranteeing comfort and durability.

A reliable solution for demanding environments

The **professional waterproof case** is particularly suitable for :

- Field operations
- Industrial and technical environments

- Maintenance and rescue missions
- Secure transport of sensitive equipment

Its sturdiness and waterproofing make it a reliable piece of equipment for intensive use.

Why choose a PELI waterproof case?

Peli cases are renowned for their **reliability and durability**. They guarantee optimum protection for your equipment, even in the most demanding conditions.

What types of equipment can be carried in the Peli 1640?

The **Peli 1640** is ideal for transporting bulky equipment: technical equipment, industrial tools, emergency equipment or sensitive electronic devices.

Can this case be used for frequent field operations?

Absolutely, its robust design, **heavy-duty wheels** and **ergonomic handles** mean it can be used intensively on regular trips.
